

VITALPEAK BMA 30

Main advantages of the baby monitor BMA 30

Mains and battery operation

Backlit LCD display

Range up to 300 m

Speaking to the child function

Warning out of range

Simple control

Baby monitor BMA 30

is an excellent helper of every parent. The monitor is equipped with two-way transmission, so not only parents but also the baby hears voices. At night, you can play for your baby one of the six lullabies that you turn on from the parent unit. There is also volume control, notice of signal failure and low battery. The power supply of the parent and child unit is very variable; you can choose power from the mains or 3 AAA rechargeable batteries, which are included in the package.

VITALPEAK BMA 30

VITALPEAK are modern and reliable products for your good quality and more comfortable life. The ease of use, quality and high functionality of the products ensure comfort that makes life easier.
